

EIGHT-HOUR BILL WILL AVERT STRIKE

Brotherhoods Agree to Cancel Walk-out Order If Congress Acts By Sunday

RETALIATION AGAINST TRADE RESTRICTIONS OF ALLIED POWERS

Is Adopted as U. S. Government Policy—Embassies Anxious—Trade War May Result

WASHINGTON, Aug. 31.—Retaliation legislation in support of diplomatic protests against the Allied trade restrictions with American goods has been decided upon as a general policy of the government. This was stated officially today, with the explanation that provisions of the shipping bill and the pending revenue bill were first steps.

Up to now, a high official pointed out, the United States has relied solely on the sense of justice of the belligerent nations, but that, despite the principle of which this government has denounced as illegal in a sweeping note, trade pressure and discrimination has been increasing exasperatingly.

Consequently, after discussions between Secretary Lansing and members of Congress, to empower the President to employ commercial retaliation. This course would have been taken some time ago, it was intimated, except that all plans of retaliation proposed were abandoned.

The amendment to the revenue bill would give the President discretionary

PROHIBITION AS WAR MEASURE ON IN RUMANIA

BUCHAREST, Aug. 31, via London, 1:50 p. m.—The police commissioners have forbidden the sale and consumption of alcoholic liquors in all establishments through Rumania under penalty of severe punishment.

WASHINGTON, Aug. 31.—Railroad brotherhood leaders explained tonight that the strike order, if not rescinded, would be simultaneously effective throughout the country Monday morning at 7 o'clock. The hour named in the orders distributed among the trainmen in the eastern time belt is 7 o'clock, while different forms went to those in the other belts, designating 8 o'clock for the men in central time; 9 o'clock in mountain time, and 4 o'clock in Pacific time.

VON HINDENBURG NOW CENTER OF INTEREST IN THE WAR

Can He Re-arrange Teutonic Forces to Offset Rumania and Greece? BALKAN INTRIGUE Ferdinand of Bulgaria May Resign to Permit Change of Policy

LONDON, Aug. 31, 11:00 p. m.—The whole interest in the war is now focused on the Balkans and on the German Field Marshal, von Hindenburg.

Rumania's participation adds a fresh army and gives the Russian army opportunity to cooperate with Rumania on Galician and Transylvanian fronts. Another important factor is the closing of the Danube, the principal route for the shipment of munitions from Germany to Turkey and the shipping of supplies to Germany.

Reports differ as to whether the Central Powers were ready for Rumania's weakening and of the Greek people forcing the government to resist Bulgarian occupation of Greek territory are much discussed. English speculation is that King Ferdinand of Bulgaria is preparing to abdicate in favor of Crown Prince Boris.

Crown Prince Boris is reported to be hedging on Bulgaria's gamble by expressing sentiments friendly to his father's enemies.

Aleks Turkish Help Rome reports that Bulgaria requires insurance by a reinforcement of 20,000 Turkish troops, a force she will devote to the Balkans.

Chief speculation regarding Field Marshal von Hindenburg's policy is whether and in what direction he will change Germany's plan of campaign.

Whether public opinion, in view of Chancellor von Bethmann-Hollweg's declaration that peace should be made on the basis of the present state of Europe will permit any sacrifice of the territory the central powers have gained, is questioned. Heretofore the German government has discussed victory and defeat chiefly in terms of the territory gained and lost by the belligerents.

Field Marshal von Hindenburg has been regarded here as a fighting general rather than strategist. His success in the northeast is attributed largely to his intimate knowledge of the country.

Text of Compulsory Eight-hour Measure

WASHINGTON, Aug. 31.—The text of the Adamson bill follows: Be it enacted in the Senate and House of Representatives of the United States of America, in Congress assembled: "Section 1.—That beginning December 1, 1916, eight hours shall, in contracts for labor and service, be deemed a day's work and the measure or standard of a day's work for the purpose of reckoning compensation for service of all employees who are now or may hereafter be employed by any railroad which is subject to the provisions of the act of February 1, 1887, 'An Act to Regulate Commerce,' as amended, and who are now or may hereafter be actually engaged in any capacity in the operation of trains used for the transportation of persons or property on railroads from any state or territory of the United States or the District of Columbia, to any other state or territory of the United States or the District of Columbia, or from any place in a territory to another place in the same territory, or from any place in the United States to an adjacent foreign country, or from any place in the United States through a foreign country to any other place in the United States.

"Section 2.—That the president shall appoint a commission of three which shall observe the operation and effects of the institution of the eight-hour standard work day as above defined, and the facts and conditions affecting the relations between such common carriers and employees during a period of not less than six months nor more than nine months in the discretion of the commission, and within thirty days thereafter such commission shall report its findings to the President and Congress. That each member of the commission created under the provisions of this act, shall receive such compensation as may be fixed by the President. The sum of \$25,000, or so much thereof as may be necessary, be, and hereby is, appropriated out of any money in the United States treasury not otherwise appropriated to be immediately available and to continue available until the close of the fiscal year ending June 30, 1917, for the necessary and proper expenses incurred in connection with the work of such commission, including salaries, per diem, traveling expenses of members and employees, and rent, furniture, office fixtures and supplies, books, salaries and other necessary expenses, the same to be approved by the chairman of said commission and audited by the proper accounting officers of the treasury.

"Section 3.—That pending the report of the commission, herein provided for, and for a period of thirty days thereafter, the compensation of railroad employees subject to this act for a standard eight-hour work day shall not be reduced below the present standard day's wage, and for all necessary time in excess of eight hours such employees shall be paid at a rate not less than the pro-rata rate for such standard eight-hour work day.

"Section 4.—That any person violating any of the provisions of this act shall be guilty of a misdemeanor, and upon conviction shall be fined not less than \$100 and not more than \$1,000, or imprisonment not to exceed one year, or both."

CONGRESS MAY PASS BILLS AVERTING STRIKE

Would Give Men 10-Hours' Pay for 8-Hours' Work EFFECTIVE DEC. 1 Opposition Will Block Rest of President's Program

WASHINGTON, Aug. 31.—Belief grew in all quarters here tonight that the great railroad strike called for next Monday morning would be averted, Congress apparently was prepared to pass tomorrow or Saturday the eight-hour day legislation which would give the employees' brotherhoods the code message necessary to revoke the strike order.

Although President Wilson still desires strongly to see his whole legislative program accepted, administration spokesmen virtually conceded tonight that the bill finally passed would provide only for:

An eight-hour day for trainmen in interstate commerce, effective December 1 or July 1, with the present ten-hour rate of pay and pro-rata overtime.

Small commission appointed by the President to investigate the working of the law and report to Congress.

This, with the date December 1, is in substance the Adamson bill, revised by Representative Adamson and Democratic leader Ellison after conferring with President Wilson and which A. R. Garretson, spokesman for the brotherhoods, stated formally last night would be considered a "satisfactory settlement" and prevent the walk-out. Tonight the Senate interstate commerce committee agreed to report out a similar bill with the date of January 1 and reads under 200 miles in length exempted.

Both Houses on Job

The House will meet at 11 o'clock tomorrow morning to take up the Adamson measure and the majority leaders have agreed upon a special rule providing for a vote by 4:30 o'clock at the afternoon. The Senate will meet at 10 o'clock to begin consideration of its committee's bill. Administration leaders are determined to keep the body in continuous session until this is passed.

Only long speeches in the Senate can prevent prompt action and the administration is confident that minority senators will not carry their opposition so far as to make it impossible to get the necessary legislation through both houses by midnight Saturday.

President Wilson will be in his room at the capitol when the Senate meets and has arranged to spend all of the forenoon there aiding in putting the legislation through. At 5 o'clock in the afternoon he leaves for Shadow Lawn, his summer home at New Jersey, where on Saturday he is to be notified officially of his nomination for re-election. A special messenger will be started for Shadow Lawn with the 4-hour bill as soon as it is passed and the President will sign it there.

While the Senate committee today was holding a nine-hour hearing at which representatives of the railroads, the employees and the shippers gave their views on the situation, the President held frequent conferences with members of Congress and sent for brotherhood leaders, urging them to rescind the strike order.

When the trainmen left, the White House authorized the statement that they had given no assurances. It was indicated that the President intended as a last resort to address a public appeal to the men of the brotherhoods urging them on patriotic grounds to have the strike called off.

Program Failed

It was not until late today that a definite idea of what the Senate would have before it tomorrow was obtainable. When its hearings closed, the interstate commerce committee went into what promised to be an all-night session to consider the various legislative proposals before it, including the President's whole program with its provisions for preventing strikes, drafting of men to operate trains in case of military necessity. All these provisions could never be acted, and near midnight it was learned that the Senate committee had decided it would not be advisable to submit them at this time.

Senator Brandegee, a Republican committee member, expressed the opinion that the bill could be passed by tomorrow night.

Formal announcement of the House program was made just before the House adjourned. Representative Kitchin, with a request that all members be in their seats tomorrow.

Speaker Clegg remarked that enactment of the strike legislation by Saturday night would mean final adjournment of Congress next Wednesday.

Representative Mann, Republican leader, is opposed to the Adamson bill and other Republicans have indicated their determination to vote against it, but no strong concerted opposition is looked for.

Postmaster General Barlow, expressed confidence that the legislation would be passed through both houses.

MOB FRIGHTENS GIRL TO DEATH

Daughter of Sheriff of Lima, Ohio, Killed By Shock

LIMA, Ohio, Aug. 31.—Sheriff Sheriff Elmer E. Hays, who has been in the city for some time, was today informed that his little daughter had died from shock, caused last night when the mob forced its way into the jail, seeking the life of Charles Daniels, a negro.

And Mrs. Cecil Reppert, Mrs. Hays' sister, is in a critical condition. She was severely and abused by the mob which had been ordered by the sheriff to assist the negro, made upon Mrs. John Barker, wife of a prominent Allen county farmer.

Prosecutors immediately appealed to the secretary of Governor Willis this evening to send state troops to this city in an effort to keep down a revival of the mob spirit. State authorities took no action on Mr. Barker's request, as only the sheriff, mayor or county judge is authorized to make a formal request for troops.

Today this evening a large crowd gathered in front of the county jail, but there was no demonstration. For a time, however, some officials feared a riot might follow last night's violence and every precaution was taken.

The negro last night was in the Henry county jail at Napoleon, where he was rushed late last night while the mob was enroute from Lima to take him to get him.

Colonel E. S. Bryant, assistant adjutant general of Ohio, who came to Lima this afternoon, informed state officials that the situation was quiet and that there were no unusual signs of disorder.

PROHIBITIONIST PIONEER DIES

John P. St. John, Twice Governor of Kansas, Noted Lecturer

TOPEKA, Kansas, Aug. 31.—John P. St. John, a candidate for the Presidency on the Prohibition ticket in 1912, twice governor of Kansas, and one of the most widely known temperance advocates in the United States, died here tonight. He was 73 years old and had been in failing health since a heart prostration two months ago while on a speaking tour.

John Piers St. John was one of the most widely known temperance advocates in the United States. He was a candidate for President on the Prohibition ticket in 1912 and served two terms as governor of Kansas—1903-1907 and 1909-1911—during which Kansas became a prohibition state.

Describing the fight for prohibition in Kansas, Governor St. John once said:

"The brewers had only themselves to blame for prohibition in Kansas. The first step toward a state-wide movement was at their suggestion. Mr. Flery, a minister, introduced in the house a high license act of passage. To defeat it, the brewery agents suggested that the people be given an opportunity to vote on state-wide prohibition. Of course, it was not the purpose of the brewers to ruin prohibition. It was the cup to kill the high license bill, killed the saloon in Kansas.

"The prohibitory amendment was submitted to the Senate and passed. The House was to kill it. The brewers and all kindred evil, enough members voted for high license, but prohibition, they believed, to defeat any attempt to submit the proposition to the people. The brewers guessed wrong about public sentiment.

"Every influence was brought to bear on House members by the brewers. I was governor, but I couldn't keep out of the fight. Violating all precedent, I left the governor's office to help fight the battle on the House floor.

"The day for the vote came. The galleries were packed. The politicians tried hard to avoid a vote by hiding. The sergeant-at-arms was busy rounding them up and bringing them into the chamber. Finally the vote was begun. The silence was intense. Two-thirds to carry the proposition though. We did not know how to get it. All at once Mrs. Grady (the wife of one of the members) started down the aisle to her husband's desk. She stopped beside him, and, placing his hand in hers, pleaded with him. 'For my sake, for the sake of your children, she cried, 'change your vote. Do it for my sake, for my sake, no matter what you believe.'

"I never changed my vote, while the building shook with cheers."

Born at Brookville, Indiana, February 25, 1843, St. John served as a captain and lieutenant-colonel in the Civil war, and settled in Kansas, where he became a member of the state Senate. He became a political factor when he won a fight to a special United States Senator Samuel B. Pomeroy. Pomeroy and St. John had been personal friends, but the latter became displeased with the way Pomeroy conducted himself as a senator, and thereupon announced John P. St. John's resignation. This made St. John a leader and resulted in his election as governor.

He was called a "traitor" when he deserted the Republican party and became a candidate for President on the Prohibition ticket in 1912. During this campaign he was injured or burnt in a fire, more than 500 times. He was

GRAND JURYMEN REFUSE TO INDICT FRESNO YOUTH

(Special to The Republican.) SAN FRANCISCO, Aug. 31.—The federal grand jury refused today to return an indictment against Ralph E. Curtis of Fresno, who was alleged by the United States army to have defrauded the Government out of \$8,551 in sustenance and transportation on the promise to join the ranks. Curtis confessed to the army authorities at Angel Island, that he had been discharged from the army and was ineligible to enlistment.

WEINSTOCK URGES NEW STRIKE VOTE

Calls on Brotherhood Chiefs to Ascertain Sentiment Anew

SAN FRANCISCO, Aug. 31.—Colonel Harris Weinstock, state market director of California, telegraphed the leaders of the four great railroad brotherhoods today a request that another strike vote be taken among the 400,000 railroad men involved. Before a strike set for September 4, he called on all the great railroads—the United States, A. B. Garretson, spokesman for the order of Railway Conductors, and Weinstock were members of the federal commission on industrial relations.

Colonel Weinstock said in his telegram that the demands of the brotherhoods has now become an issue between the railway men and the American public, and that the "tremendous power placed in your hands makes it possible for you to paralyze the trade and commerce and industry of the nation and rest upon your shoulders the greatest responsibility created in this country since the Civil war. This power should not be exercised as long as there is any honorable way of adjudication."

New Conditions

"In view of the new conditions which have arisen since the rank and file of railway men balloted on the strike, I feel that they should be afforded another opportunity of voting on the issue as it stands today. To that if a strike must be called under these new conditions the responsibility will rest where it belongs, with the rank and file, rather than with your committee."

"I am more than ever convinced that a strike called at this time under existing circumstances will not only be against public interest, but will do incalculable injury to the nation and more especially to organized labor. My concern is deep, not only as a citizen, but as a state director who sees ruin staring thousands of California fruit growers in the face on the eve of harvesting and shipping their year's crop."

WOMAN CLIMBS NOW IN PERU

LIMA, Peru, Aug. 31.—Miss Annie S. Peck, the American mountaineer, arrived here today after a successful trip through Brazil, Chile and Bolivia. She also visited the river La Plata district.

WOMAN CLIMBS NOW IN PERU

LIMA, Peru, Aug. 31.—Miss Annie S. Peck, the American mountaineer, arrived here today after a successful trip through Brazil, Chile and Bolivia. She also visited the river La Plata district.

ELECTRICIANS MAY STRIKE

SPRINGFIELD, Ill., Aug. 31.—Members of the International Brotherhood of Electrical Workers employed by the seventeen railroads in eight states are preparing to strike unless demands being drafted asking an eight-hour day and a general wage increase of 5 cents an hour are met, according to J. P. Noonan, vice-president of the brotherhood, at headquarters here tonight.

NOT SATISFACTORY SAYS A MAGNATE

Considers Bill Unconstitutional, But Says Railroads Would Not Be Hasty in Fighting It

CHICAGO, Aug. 31.—Hale Holden, president of the Chicago, Burlington and Quincy Railroad, who was spokesman for the railway managers at their conferences with the President, declared tonight that passage of the Adamson compromise eight-hour bill by Congress would not be satisfactory to the railroads and would not settle the pending controversy.

"The railroads would take no precipitate action in event the bill were passed," said Holden. "We would not be hasty because we would consider the interests of the public."

"It is my understanding that the Supreme court of the United States has held recently in two cases that the Congress of the United States has absolutely no power to fix wages. That is what the Adamson bill amounts to, according to my understanding."

Presidents of Chicago railroads met at the Chicago Club this afternoon. Hale Holden, president of the Chicago, Burlington & Quincy, who headed the committee which conferred with President Wilson, was present, as was J. W. Tillman, chairman of the Association of Western Railways. A brief statement issued after the meeting said:

"Methods of dealing with the conditions which will be created if the strike comes very discussed, but no definite and final plans were adopted. Similar meetings will be held daily until the situation has cleared.

The railroads of the country completed embargo preparations. Employees were advised to take other second thought as to the future before striking and advertisements for strike-breakers appeared in newspapers throughout the country. Associated Press dispatches showed that everywhere communities were organizing motor trucks and interurban lines for emergency transport service.

RUSHING PRODUCE TO SAN FRANCISCO THE COAST GOING

Hurried Shipments of Commuters May Suffer; Tokays Cause Slump in Market River Boats to Be Used

(Special to The Republican.) SAN FRANCISCO, Aug. 31.—A tidal effect of the threatened railroad strike on San Francisco's fruit markets at the advent of the strike itself, when extraordinary arrivals of Tokay grapes today sent prices down some 10 cents a crate. Some hundred tons of Tokay grapes reached the market and sold at from 25 to 30 cents against 35 cents and 40 for a few days ago.

Another outstanding feature of the situation as affecting the coast of vine was the prohibition made by day-trippers that the price of milk is not to take a jump during the first few days of the strike, according to a statement by the California Milk Producers' Association.

There was a very apparent weather undertone in the whole produce and fruit market. Shipments of peaches are on the way and the arrival of all these is predicted. All kinds of grapes are in such a state of confusion that Tokay grapes were from 25 to 30 cents against 35 cents and 40 for a few days ago.

The vegetable market generally was slack and slow and potatoes and onions were weak.

No change in the cost of fresh fruits is set in evidence and there is a large supply of packing house produce on the market, so far as those items are concerned, enough to last for some time.

SAN FRANCISCO, Aug. 31.—Pacific coast railroads and shipping men tonight were optimistic regarding the railroad strike situation when news came from Washington that the brotherhoods had agreed to accept the eight-hour compromise bill as a basis for calling off the walk-out. Preparations were in progress, however, for meeting the situation in case peace efforts failed.

Interstate California fruit reached the coast by boat and towboat and was planned to drag freight barges far up shallow sloughs and rivers and then haul them cargoes by motor trucks to towns near but not on navigable water. Barges full of milk and other commodities were being sent to the coast by boat and towboat.

Thirty thousand commuters who ride daily trains and boats of the Southern Pacific, Key System and Northwestern Pacific from their homes to their work in San Francisco today wondered how they would travel next week. The Key System, whose employees are not in the brotherhoods, announced it would honor Southern Pacific commuters' tickets. Officials of the other two roads said that they would make arrangements for their own employees.

No change in the cost of fresh fruits is set in evidence and there is a large supply of packing house produce on the market, so far as those items are concerned, enough to last for some time.

EFFORTS TO KEEP THE COAST GOING

Hurried Shipments of Commuters May Suffer; Tokays Cause Slump in Market River Boats to Be Used

SAN FRANCISCO, Aug. 31.—Pacific coast railroads and shipping men tonight were optimistic regarding the railroad strike situation when news came from Washington that the brotherhoods had agreed to accept the eight-hour compromise bill as a basis for calling off the walk-out. Preparations were in progress, however, for meeting the situation in case peace efforts failed.

No change in the cost of fresh fruits is set in evidence and there is a large supply of packing house produce on the market, so far as those items are concerned, enough to last for some time.

CALIFORNIA'S CITRUS WEALTH SHOWN IN ASSOCIATION REPORT

Returns During Past Season 35 Per Cent More Than Previous Year; Industry Brings \$41,000,000 to State; Tulare District Grows

California growers of citrus fruits, particularly those who ship their products through the California Fruit Growers Exchange, have enjoyed one of the most prosperous years in the history of the industry, according to the annual report just issued from Los Angeles for the 1915-16 season by H. Harold Powell, general manager of the exchange.

During the year exchange growers produced 67 per cent of the total California crop, shipped 4,666,722 boxes of oranges and 2,383,173 boxes of lemons; a business representing in total a return to the California growers of \$27,500,000, or 35 per cent more than in any preceding year.

General prosperity of the working classes, due to abnormal trade conditions caused by the war, and effective advertising are the main reasons given for the large demand.

In pointing out the service of marketing perfected through the growers' organization, the report says:

"The traffic department of the exchange alone returned to exchange shippers \$107,161 in freight claims during the year, the charge for the service being included in the general average marketing cost noted above.

"The Fruit Growers Supply Company, an affiliated organization, handled a business for exchange growers exclusively amounting to more than \$4,000,000—this money representing the purchase of necessary orchard and packing house materials and supplies."

Summary

A general summary of the report, showing the business of the association, its receipts and average selling price per box, follows:

During the year ending August 31, 1916, exchange growers forwarded 12,195,423 boxes of citrus fruit, consisting of 9,666,722 boxes of oranges and 2,528,701 boxes of lemons, or 67 per cent of the total of 44,637 cars of citrus fruit shipped from California.

Exchange membership increased from 62 1/2 per cent to 67 per cent, and the exchange handled 12 per cent of the volume and a larger proportion of the citrus crop than in any preceding year.

Exchange fruit, having a delivered value of approximately \$28,500,000, returned to California \$27,500,000, or 35 per cent more than in any preceding year. Losses from bad debts and all other causes totaled \$107,161, or 3.8th of 1 per cent of the money returned to California.

The total average selling cost was 5.65 cents per box, or 1.78 per cent of the delivered value of the fruit. In addition, the money invested in advertising 1 1/2 cents per box for oranges and 4 cents per box for lemons.

After an evaluation of twenty-one years, the exchange comprises 12 shipping associations, and maintains 77 district sales offices. On a non-capital, non-profit, co-operative basis, it renders its 8000 members the most

comprehensive and least-expensive marketing service that has been developed for any agricultural crop.

A more comprehensive summary of the shipments, together with the receipts for the season 1915-16 and in the report in the following paragraphs:

"During the year ending August 31, 1916, there were shipped from California 37,279 cars of oranges and 7,538 cars of lemons, making a total of 44,817 cars. The exchange shipped 21,006 cars of oranges, consisting of 9,666,722 boxes of oranges, 75,538 boxes of grape fruit, and 2,383,173 boxes of lemons. The amount of money returned by the exchange to the shippers approximates \$27,500,000, which is nearly 35 per cent more than the largest preceding year, or an increase of approximately 33 per cent.

"The delivered value of the fruit is approximately \$28,500,000. Using the exchange returns as a basis for computing the value of the crop, the amount returned to California for the citrus crop totals \$41,000,000.

Speaking of the Tulare county district and the increase in shipments in that section, the report says:

"The proportion of Exchange shipments from Tulare county increased 8 per cent during 1915, and greater stability at the beginning of the season to the distribution of the navel crop. The season opened with mature, high-grade oranges from Tulare county, most of which conformed to the 1 to 1 maturity standard which was established by the United States Department of Agriculture and has been rigidly applied to all 'Sunset' navel. The adoption of this standard by nearly all shippers delayed the first supplies ten days or more, but resulted in improved eating quality of the fruit reaching markets.

California growers received the highest general average on their crop for any year excepting 1911, when the fruit was unusually fine in quality and the volume small.

"It is unfortunate that there are many cash buyers and some exporters who are unwelcome of the interests of the industry as a whole and continue to ship fruit that may be orange in color but fall below the 1 to 1 quality standard. The marketing of oranges that are sour and unpalatable is detrimental to the best interests of the citrus industry. A car may be sold at good prices at the beginning of the season when the market is bare, but only by giving the consumer oranges that are good to eat can the industry succeed in developing continuous demand. In increasing the consumption of navel fruit in competing with Florida fruit, public sentiment, both in California and among the trade, has severely condemned shippers of immature fruit, so that the continued shipment of inferior oranges, either from northern or southern California, is likely to grow less in importance."

Distribution.

Although no direct mention is made of loss that would follow a national railroad strike, the report calls attention to the delays in marketing service through natural causes. The fact that a daily distribution of the crop is maintained, especially complete with other fruit districts, inferentially shows something of the chaos that would follow in the wake of a strike. Touching upon the distribution, the report says:

"There are in California 40,000 acres of Washington Navel orange trees, below the bearing age. The crop must be marketed in the face of rains in California and cold weather in the East which interfere with the most uniform daily distribution. It must also be marketed in competition with the Florida navel, which for slightly more advanced in maturity in the early portion of the season. The shipment of only mature oranges early in the season, coupled with national advertising, is fundamental to increasing the consumption of the fruit and successful marketing of the crop. It is a proven fact that the shipment of inferior fruit, even in small quantities, will bring about better oranges, the concept of brown rot by orchard treatment and a more careful handling of the fruit to prevent blue mold still help raise the low prices generally realized in February, while the growth of the Exchange will make it possible to market a larger proportion of the crop under the most desirable conditions."

The 1916 Valencia crop will be the largest in the history of the industry and will aggregate between 13,000 and 14,000 carloads. In 1915, the Valencia shipments equaled 8,500 carloads, and in 1914, 12,000 carloads. The crop as a whole was of excellent quality. Notwithstanding an increase of over 40 per cent over the crop of 1915 and a continuance of the growers' average return has been equaled only once in recent years.

Re-Build Tulare Houses.

In an effort to further standardize fruit shipments, the field department has elected to make a more better packing methods. This is particularly true of the Tulare district, of which the report says:

"In Tulare county, for example, the majority of the packing houses have been remodeled under the advice of the field department, and the standard of packing methods is in progress in all exchange houses. As a result of the work of the field department, great improvement has been made in the curing of lemons and the coloring of Valencia that do not attain full orange color on the trees and in the packing of grade of oranges and lemons has been shipped."

OLIVE GROWERS INC. GIVEN STOCK PERMIT

Authorized to Sell 60,000 Shares at Five Dollars Per Share

The California Associated Olive Growers, Inc., one of the co-operative marketing companies organized through the efforts of Cal. Maria Weinstein, state market director, has been permitted by Commissioner of Corporations H. L. Carahan to sell 60,000 shares of its common stock at par, \$5 per share, net to the company, and to issue 20,000 shares of its preferred stock at par, for cash or in exchange for real or personal property.

Prior to incorporation, the company conducted a canvass among all the growers of the state and it is asserted that the company has secured general support and signatures to crop contracts.

The preferred stock will probably be issued only in exchange for plants which the new company proposes to take over. At present it has in view a plant in the four oaks district and another in the Fresno district and a third at Fall Brook in San Diego county. The preferred stock of

HOW TO BE SLIM

If you are too fat and want to reduce your weight 15 or 20 pounds, don't starve and weaken your system, or think you must always be hungry on account of your fat, but go to the San Joaquin Drug Co., or any good drugstore, and take one of our special capsules, take one after each meal and one before retiring at night.

Weight yourself once a week and note what a pleasant and reliable method this is for removing superfluous fat from any part of the body.

It costs little, is absolutely harmless and a week's trial should convince anyone that it is unnecessary to be burdened with even a single pound of unwholesome fat.

YOSEMITE TRAFFIC BREAKING RECORDS

More Visitors in Valley During August Than in Previous Years

The month of August has new records established for visitors to Yosemite Park, both by motor car and on foot. Never before during a single month of August have so many entered the national park, and from all indications, September will see another high water mark.

The valley has had its best year for the scenic standpoint this season. The trip from San Jose down as full, or returned full as late in the season. Throughout the month of August the valley had an abundance of water, and now the autumn months, with their beautiful trees and wonderful nature, are nearing to draw visitors into the valley.

The last week of August was the best of the month, according to figures from David A. Curry, stenographer of the Yosemite. Arrivals from northern California established a weekly record for the month. Among the guests at Camp Curry from San Francisco and northern California were:

From San Francisco—H. W. Conner, H. W. Gallet, A. E. Jones, J. Molander and wife, N. Polakoff and wife, Hazel Rowden, Mrs. K. Gode, Miss Kate Gode, John J. Whittier, J. Kuttner, Miss Pauline Wheeler, Mrs. Katherine Wheeler, E. L. Granger, Dr. Shadworth O. Beasley, S. Joseph Webb, Elizabeth Small, W. C. Kendrick, Frank O. Merritt, Mrs. Lin Cox, P. J. Small.

From Sacramento—G. E. Wilson and wife, W. A. Newsum.

FEDERAL EXPERT IS PROBING MEALY BUG

Federal Entomologist Inspecting County Vineyards

R. L. Nougaret, economic entomologist in the service of the United States department of agriculture, arrived in Washington, D. C., arrived in Fresno yesterday to inspect grape vineyards, particularly in regard to the great mealy bug. County Horticulturalist Fred L. Beutler, Nougaret to several vineyards yesterday. The investigation will continue for a day or two.

Beutler anticipated a visit from Nougaret to this district some days ago and caused the field inspectors working in this district to prepare reports. Fortified with these reports, Beutler was able to give Nougaret valuable information regarding honey-dew caused by the great mealy bug, and on midday.

It is expected that the two experts will prepare a comprehensive report within a short time which will be of inestimable value to the grape growers of this county and to all others in California.

Civic Organization Hard at Work to Make Auto Caravan B'g Success

The Fresno County Chamber of Commerce, which is doing much to make the automobile caravan to Sacramento and San Joaquin Valley Day a big success, yesterday sent invitations to all of the civic organizations of the valley, asking that the members join the party that will leave Fresno at 8 o'clock Thursday morning.

The Merchants Association yesterday made special mention of the excursion in its monthly bulletin. Bureau of the association are going on the trip and have urged as many merchants as possible to either go or send representatives.

A ten-piece drum corps will be taken on the trip by the Chamber of Commerce and short concerts will be given at each city on the highway between here and Sacramento. Among those in the drum corps will be Fred Knobloch, G. C. Russell, Frank Lock, Moss Giffen, Herbert Harvey, Gerold Jones and John Whitman.

Those Going on Trip.

The following have signed up to go on the trip: Directors of the Fresno County Chamber of Commerce; directors of Commercial Club; directors of Merchants Association; directors of Fresno District Fair Association; members of Fresno Traffic Association; representatives from the California Associated Raisin Company; representatives from the California Peach Growers Association; representatives from the San Joaquin Valley Counties Association; Mayor Snow; representatives from Fresno Board of Supervisors; Fresno County Highway Commissioners; committee from Fresno Rotary Club; committee from Commercial Club; Bonanza H. W. Lake; President of Fresno County Club; Fresno Festival Association; Benham Ice Cream Company; Lucius Powers; J. W. Irwin; Lindsay; David Ash, Riverside; Hotel

Fresno Republican's Auto Caravan TO State Fair at Sacramento

We will join the Fresno Republican's Auto Caravan with automobiles to the State Fair at Sacramento, leaving Fresno on Thursday, September 7th, 1916, at 8 a. m. To participate in "San Joaquin Valley Day" (Friday)—and to extend greetings to our neighbors on the north.

FORD PROFITS ARE MILLION A WEEK

DETROIT, Aug. 31.—A profit of more than \$1,000,000 a week was made by the Ford Motor Company during the year which ended July 31, according to the financial statement made public today. The year's business totaled \$208,867,347. The year's profit was \$50,994,118. Henry Ford announced that most of the profit will be used in expanding the company's business.

OFFICIAL COUNT IS STARTED; EXPECT NO CHANGES

Johnson-Burnett Race Is Being Watched With Much Interest

Official Line Up Ticket in San Joaquin Valley and This County

The official count of the votes cast in Fresno county at the primary election was started yesterday by the supervisors and it is not thought that the final count will make any material differences in the unofficial count unless it should be in the race between J. H. Johnson and J. H. Burnett in the third supervisorial district. According to count Johnson won by 11 votes. Supporters of Burnett have urged him to contest the election, but no definite statement will be made, so it was announced yesterday, until the official count has been finished. If the result is then a few votes different it is probable that Burnett will ask for a recount. Supervisors Jorgensen, Huffman and Wells are making the official count. Supervisors Johnson and Wells were excused at their own request as they official count was not completed until yesterday afternoon at 3 o'clock. The returns from Panoche precinct were not received until that hour. Fourteen precincts were counted yesterday. It may take three or four days until the official count is completed. A big crowd gathered in the supervisors' office yesterday to watch the official count. As all other contests were won by fairly big majorities the chief interest in the official count centers upon the third supervisorial district line up for the November election in the San Joaquin Valley will be as follows:

U. S. Senate.
Hiram W. Johnson, (Rep.)
George Patton, (Dem.)
Legislative.
46th District, Stanislaus Co.—
W. L. Bennett, (Rep.), (Dem.)
49th District, Madera & Merced—
H. K. Hetherington, (Rep.)
Walter C. Major, (Dem.)
50th District, Fresno—
A. W. Carlson, (Rep.)
W. L. Harris, (Dem.)
51st District, Fresno—
John Fairweather, (Rep.)
Henry Lawson, (Dem.)
52nd District, Fresno—
L. B. Cary, (Rep.)
Melvin Smith, (Dem.)
53rd District, Kings—
W. C. Long, (Rep.)
54th District, Tulare—
Robert Horbach, (Rep.)
Fred C. Scott, (Dem.)
55th District, Kern—
W. C. Thiele, (Rep.)
W. L. Harris, (Dem.)
Nominations for Fresno county offices will be as follows:
2nd Supervisorial District—
R. E. L. Cobb.
3rd Supervisorial District—
J. H. Burnett.
5th Supervisorial District—
W. A. Collins.

We will join the Fresno Republican's Auto Caravan with automobiles to the State Fair at Sacramento, leaving Fresno on Thursday, September 7th, 1916, at 8 a. m. To participate in "San Joaquin Valley Day" (Friday)—and to extend greetings to our neighbors on the north.

How to Be Slim

If you are too fat and want to reduce your weight 15 or 20 pounds, don't starve and weaken your system, or think you must always be hungry on account of your fat, but go to the San Joaquin Drug Co., or any good drugstore, and take one of our special capsules, take one after each meal and one before retiring at night.

Weight yourself once a week and note what a pleasant and reliable method this is for removing superfluous fat from any part of the body.

It costs little, is absolutely harmless and a week's trial should convince anyone that it is unnecessary to be burdened with even a single pound of unwholesome fat.

School Needs

Once more the time for school opening is rapidly approaching. We are prepared, yes splendidly prepared to supply the needs of students from the smallest kindergarten pupil to the high school or college girl. It will be to your advantage to make selections in this big store of broadest assortments and best values.

ROOSEVELT OPENS CAMPAIGN IN MAINE

Enthusiasm Shown by Voters for Former President

Preparedness Is Chief Plank in His American Campaign

LEWISTON, Me., Aug. 31.—Progressive united with Republicans in greeting Theodore Roosevelt who delivered his first speech of the campaign here tonight in behalf of Charles E. Hughes, Republican candidate for the Presidency.

From the time he arrived in Boston today until he retired to his room tonight, the former President received enthusiastic demonstrations. His address largely was devoted to an attack on the administration and to a criticism of the country.

"Americanism," he said, "is a matter of spirit, of the soul of the mind, not a birthplace or creed."

The cause of preparedness is connected inseparably with the cause of Americanism and patriotism "of whole hearted loyalty to this nation for which the great men of this nation in the past have stood," the Colonel declared. It would be a "grave misfortune" he asserted, to re-elect Mr. Wilson.

Under President McKinley we had a war with Spain," he said. "Under President Wilson we are assured that we have had 'peace' with Mexico. These are words. Now for the deeds. During the war with Spain, fewer Americans were killed by the Spaniards than have been killed by Mexicans during the present 'peace' with Mexico. Moreover, when the war with Spain was through it was through. But 'peace' still continues to rage as furiously as ever in Mexico."

Roosevelt charged that the taking of Vera Cruz was war, and added: "It was a war which was abandoned ignominiously; it was a war which failed. But it was war nevertheless. The king of society first for which President Wilson's advocates stand means 'duty last, honor last, courage last.' I do not believe in it. I believe that is blighted at the cost of moral degradation in the present and at the risk of national ruin in the future."

LONDON, Aug. 31, 2:55 p. m.—The Wireless Press today gave out a Rome dispatch saying Bulgaria has stipulated she must have the assistance of 200,000 Turks as a condition for a declaration of war on her part against Rumania.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulberry cocoon oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulberry cocoon oil at almost any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

TWO RAILROAD MAGNATES NOW FACING THE STRIKE

R. S. Lovett, president of the Union Pacific, (left), and Daniel Willard, president of the Baltimore and Ohio, leaving the White House after a conference with President Wilson. These two, with Hale Holden of the Burlington, constitute a select sub-committee the railroad magnates have been conducting negotiations with President Wilson, since the arrival of the president of the western roads in Washington.

VOGELSANG TO BE LANE'S ASSISTANT

Is Brother of E. D. Vogel-sang of This City

WASHINGTON, Aug. 31.—A. A. Jones of East Las Vegas, N. M., assistant secretary of the interior, resigned today to become Democratic candidate for the Senate in his district.

The President nominated Alexander T. Vogelsang of San Francisco, Cal., to succeed Mr. Jones.

Alexander T. Vogelsang of San Francisco was formerly supervisor in San Francisco, and was previously state commissioner of fish and game. He is a brother of E. D. Vogelsang of Fresno.

Park to Close Early

TACOMA, Wash., Aug. 31.—Northern Pacific Railroad ticket offices are advised by the superintendent of the Yellowstone National Park that owing to the disturbed traffic conditions the season at the park will close September 1, instead of the usual date, September 15.

Notify Fairbanks

INDIANAPOLIS, Aug. 31.—Charles Warren Fairbanks was notified formally this afternoon that he had been nominated for the Vice Presidency by the Republican party. United States Senator Lawrence V. Sherman of Illinois delivered the address and Fairbanks made reply, accepting the nomination and discussing the issues of the campaign.

Republican leaders from different parts of the country "lined the avenues," which were held on the lawn at Mr. Fairbanks' home.

Troops Turn Back

MONTPELIER, Vt., Aug. 31.—Vermont National Guardsmen who left Burlington yesterday under orders from the War Department to proceed to Eagle Pass, Tex., abandoned their trip because, according to officers, the railroads would not guarantee that the troops could reach the border before the time set for a strike on Monday. The troop train passed through here today on its return to Camp Gates.

Lumber Rates

WASHINGTON, Aug. 31.—The Interstate Commerce Commission today postponed until November 1 the effective date of its order for readjustment of rates on lumber from Oregon and Washington to points in Southern California, New Mexico and Arizona.

To Return to Oregon

SAN DIEGO, Aug. 31.—Orders received from the War Department at Washington this afternoon by Colonel McClatchin provide for the return of the state mobilization camp in Oregon of the Third Oregon Infantry, which has been in camp at Imperial Beach, about ten miles below San Diego, for the past two months. One battalion of the regiment is expected to embark for the north early tomorrow morning, and the remainder of the regiment is expected to start within thirty-six hours from the time of the receipt of the order for departure.

SOME COMMENT ON THE ELECTION

State to Be Congratulated

Men and women of California, don't you hear the women? It is at once a jubilee call to event, further action on the part of a triumphant people, and a dead march to the hopes, the aspirations, and the schemes of the corrupt and the evil-doing forces that so long held California in the clutches of the corporations, and that sought to return her to the old-time servility.

California responded nobly to the call.

While only from 25 to 30 per cent of the voters registered voted at the polls it seems more than likely that the great majority who remained away were old-line Republicans not yet sufficiently progressive to vote for Governor Hiram W. Johnson for United States Senator, and at the same time to support the discredited leadership and the tactics of the Johnson opposition that they would not vote for the "regular" Republican aspirant.

The result yesterday is simply a preliminary announcement of the election of Hiram W. Johnson to the United States Senate on November 7 next.

In such announcement, it is not Hiram W. Johnson who is to be congratulated, but rather the State of California.—Sacramento Bee.

No Wonder Otis Feels This Way

At a late hour last night the election returns indicated that Hiram Johnson had been nominated for the United States Senate. Well, Otis, sitting with a yawn. After all, this is only an incident among several other instances, some pleasant and others unpleasant, in this whirl of mundane happenings.

The really important thing before the house, the thing that Otis, like the millions drawn to greet the public is the fact that the Los Angeles Automobile and Flower Show is about to happen again. October 29 is the date.

There are a few things that Otis are a few that any Otis, like the millions drawn to greet the public is the fact that the Los Angeles Automobile and Flower Show is about to happen again. October 29 is the date.

The big fruit and flower show last year was a dazzling success. This year the show will be better and sweeter and the autos will be classier and sturdier.

The bahn of a California summer has done its glorious best, and the motor car designers have done their best, and the best of both is good. The Times will do its best to tell you about it. It is to be held at the Los Angeles Automobile and Flower Show, which paper stoutly sponsors to its glories.—Los Angeles Times.

Johnson For the Senate

The Republican nomination for United States senator had been won by Governor Hiram Johnson.

This paper supported Willis Booth in the primary, but now that Governor Johnson is the nominee of the party, we are glad to announce we are unhesitatingly accepting him as our candidate and will give him a hearty and unqualified support.

We do this for several reasons. One of them is that the party believes in political parties, and in the will of majorities within parties. Though there are times when partisanship which are not ideal, up to the present time there has been no practical suggestion to take the place of political parties in placing candidates before the people. Whether one believes in the direct primary or not, and if one does believe in it, the political party as a method to secure a candidate to represent principles for which the candidate shall stand, is the present governmental method and has fair to remain for a long time. This being true, we believe that Governor Johnson, as the candidate of the party, is the man whom we should vote for.

No one can but admire the very large ability of the man who is governor of California, and who will be our next United States Senator. We look forward to him rising rapidly to the very foremost rank in the senate and to a political future for him that may lead to yet greater honors.

He is the Republican candidate; he is our candidate.—Redlands Facts.

What the S. F. Chronicle Says:

At an early hour this morning, returns indicated the nomination of Hiram W. Johnson by the Republican party for United States senator. When we consider that this is in spite of the untimely registration of about 200,000 voters of whom 20 per cent are supporters of the Johnson policies, the result is truly remarkable; and that Johnson will go to Washington with a plurality that will rival his great victory of 1914 cannot be questioned.

Governor Johnson will enter immediately upon his second campaign for the senatorship. His first meeting will be held at Crescent City. From there he will travel by automobile, touching at towns and hamlets from the coast to San Diego. It is his purpose to carry his candidacy direct to all the people, and no political center in the state will be omitted from his itinerary.—Santa Barbara Press.

Efforts to Keep the Coast Going

Their systems Monday even in the event of the strike. Lunch and tobacco owners dreamed of good money next week in operating "jitney ferries" across the bay.

Prohibitionist Pioneer Dies

When he was in the Kansas capital he inaugurated the first "water banquet" with the result that liquor has been under taboo in the Kansas state house ever since.

HUGHES WIRES CONGRATULATIONS TO HIRAM JOHNSON

ESTES PARK, Colo., Aug. 31.—Charles E. Hughes today sent to Governor Hiram W. Johnson of California a telegram congratulating him on his nomination for the United States Senate, and expressing best wishes and hopes for his election.

"I heartily congratulate you on your nomination, and I send my best wishes for your election. We are not only seeking the success of the national ticket but it is a very important that we should have the Senate and House, I trust that they will be a complete union of forces, insuring a thoroughgoing victory."

Mr. Hughes leaves here at 2 o'clock for Loveland, where he makes a short stop, going to Denver this evening and thence east to Kansas City and Omaha.

VON HINDENBURG NOW CENTER OF INTEREST IN WAR

(Continued from Page 1)

With the re-establishing of peace, all the intelligence would have imperative need for rest which would for a number of years at least, put an end to internal wars, said the cardinal. Religious peace, he declared, will never be complete in France without a resumption of diplomatic relations with the Holy See.

The cardinal referred to the desire of the Pope for a peace which shall be just and durable without the oppression of any people and with regard to their aspirations.

"Otherwise there would be no peace, or it would not be lasting," concluded the cardinal. "In awaiting this peace the Holy See will maintain absolute impartiality toward the belligerents, whatever anyone may say to the contrary."

Congress May Pass Bills Averting Strike

(Continued from Page 1)

All those at the President's conference were agreed upon such a bill," he said, "and I don't see how either side of the controversy could attempt to oppose it. It is the face of the threatened tie-up."

Congress May Pass Bills Averting Strike

The strike situation found its way into the Senate debate on the emergency revenue bill, once during the day, Senator Stone, in a review of the accomplishments of the present administration, referred to President Wilson's efforts to prevent a strike, Senator Gallinger, the Republican leader, interrupted to say it was well known that the President was playing to the grand stand and that "he has little regard for the constitution and the laws."

Congress May Pass Bills Averting Strike

Reports tonight that brotherhood heads would be willing to notify their general chairman that a satisfactory settlement had been reached if they received assurance from the administration that the eight hour bill would be enacted into law. They declared, and not rescinding the strike order, until the bill had become a law.

W. G. Lee issued a statement quoting a telegram signed "C. J. Arthur, superintendent," and said to have been sent out over the Richmond division of the Southern Railway charging the brotherhoods with breaking faith with the President and ordering the strike. The statement denied the charges of breaking faith and said that the strike was never ordered until it was learned that the railroads were preparing a walk-out by equipping quarters for strike breakers and taking other similar precautions.

Congress May Pass Bills Averting Strike

Many Republicans attributed the defeat of James G. Blaine for President to St. John's entrance into the race.

In 1912, notwithstanding his advanced age, he campaigned for women's suffrage, declaring that when the women had the vote they would have prohibition. In 1914 he campaigned in the East for prohibition, estimating that up to this time he had altogether, received 350,000 miles and delivered 450,000 miles more of prohibition.

MAY DELAY GENERAL
STRIKE OF PACKERS

Too Many Unemployed
Is Fear of Women
Says Report

At a meeting of the newly formed
"Packing House Workers' Union," an
organization brought together by the
American Federation of Labor, fol-
lowing the recent strike of the work-
ing packers here, a resolution was
passed in which it was agreed by the
members to delay for the time being,
and probably this will mean until
next season, the calling out of every
worker in "packing house row."

This general strike has been under
consideration by the packers since the
failure of certain of the houses to meet
the terms of the workers. A committee
was appointed to investigate the
advisability of the general walk out
and the report filed by it last night
at the executive session of the strike-
ers, held in the basement of the Trinity
church, Mr. and Mrs. Ventura, it is said
advised against the contemplated
move.

While no definite report of the action
taken by the union was given out by
officials of the Labor Council, who
were in charge of the meeting, a number
of the workers openly discussed the
resolution and in commenting upon it,
gave as the reason for their unwill-
ingness to call a general strike at
this time the fact that any number
of whom packers were out of employ-
ment now, as a result of a lay-off
brought on by the threatened railroad
strike.

It was reported yesterday that the
Roeding packing house laid off 25
workers, but this could not be ver-
ified at the plant.

MORE ARRESTS MADE
ON HERNDON BRIDGE

Aubrey Nabs Six for
Speeding and Five for
Not Having Lights

Motorists who ignored the warning
issued yesterday morning by County
Traffic Officer W. L. Aubrey against
driving more than ten miles an hour
over the Herndon bridge, were arrest-
ed throughout the day. In all, six
were gathered in for this offense,
while five suffered arrest for driving
without tail lights.

Car owners who used the bridge for
a speedway and were arrested were:
M. Nakashima, Fresno; Robert Mar-
tin, Madras; A. Weston, Porterville;
W. Z. White, Phoenix; L. W. Gibson,
Clovis; and E. E. Nelson, Fresno. E.
O. Lott, arrested for the same offense
Wednesday, paid a fine of \$10 when
he pleaded guilty before Judge Graham
yesterday.

The offenders who were traveling
on the state highway without lighted
tail lights were J. J. Haystack, Man-
dala; A. W. Garhart, Fresno; Fred
Littelfield, Fresno; H. Z. Voss, San-
ger, and Donald Hutchinson, Fresno.
Garhart appeared before Judge Gra-
ham and was fined \$10.

SHOULDER HURT
IN COLLISION

F. M. Snyder, 2023 White avenue,
suffered a fracture of the shoulder
last night when, on a motorcycle, he
collided with E. L. N. Ellis, deputy
game warden, who was driving a motor
car, at Fresno and I. streets. Ac-
cording to the accident report, the
blame is attributed to "either party for
the collision. Snyder was treated at
the emergency hospital by Dr. Kenneth
J. Stanford and Dr. Harry Craycraft
and removed to a sanitarium.

AN-URIC!
THE NEWEST
DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor
Pierce, who is head of the Invalids'
Hotel and Surgical Institute at Buffalo,
N. Y. Experiments at Doctor Pierce's
Hospital for several years proved that
there is no other eliminator of uric acid
that can be compared to it. For those
easily recognized symptoms of inflam-
mation—backache, swelling, uric
acid, and frequent urination, as well as
sediment in the urine, or if uric acid in
the blood has caused rheumatism, it is
simply wonderful how surely "An-uric"
acts. The best of results are always
obtained in cases of acute rheumatism
in the joints, in gravel and gout, and
invariably the pains and stiffness which
so frequently and persistently accom-
pany the disease rapidly disappear.

Go to your nearest drug store and
simply ask for a 50-cent package of
"An-uric," manufactured by Dr. Pierce,
or even write Doctor Pierce for a free
sample. If you suspect kidney or blad-
der trouble, send him a sample of your
water and describe symptoms. Doctor
Pierce's chemist will examine it, then
Dr. Pierce will report to you, without
fee or charge. "An-uric" is thirty-seven
times more active than lithium in elimi-
nating uric acid, and is a harmless but
reliable chemical compound that may
be safely given to children.

Society

Mrs. Thomas W. Patterson and her daughter, Miss Dorothy Patterson, and Jack Patterson will return tonight from San Francisco, where they have been spending some weeks. The Pattersons have had a great variety in their summer, having spent several weeks in the mountains at Huntington and Shaver, and later going to Long Beach and Del Monte with numerous motor trips to adjacent resorts.

Mrs. Frank H. Short and Mrs. W. W. Craycroft and little daughter, returned early in the week from a summer's sojourn in southern California.

Interesting little announcements are being received locally by the friends of Mr. and Mrs. Ralph H. Butler, who are in Oakland this summer, telling of the arrival of a little son, who is shortly to be christened Ralph H. Mr. and Mrs. Butler made their home last winter on the Minniewa vineyard of which Mr. Butler was the local manager, and upon their return from the Bay cities, they are to reside on their own ranch near Park.

Mr. and Mrs. Fred E. Turnbull and children are expected to arrive today from Santa Cruz, where they have spent the summer very delightfully.

Mrs. T. A. Hoover and her daughter, Miss Nina Hoover have returned from a very pleasant summer's sojourn at the southern beaches.

Mr. and Mrs. Earl Curtis and sons are at home after a summer vacation enjoyed at Santa Cruz.

Dr. and Mrs. H. P. Beaser have returned from a very delightful summer in the east, Dr. Beaser having spent the earlier summer in Kansas City, where he took a special course at a dental college, and later joined Mrs. Beaser in Montgomery, Alabama, where they were the guests of relatives.

Mrs. E. L. Platt has as her house guests, Mrs. F. E. Munn and Miss Adeline Munn, of Los Angeles, former Mrs. Platt, who are being delightfully entertained by their former friends while in town.

Mrs. W. E. Tamm is enjoying a visit of a month or so with relatives in Palm Springs, Missouri.

Mr. and Mrs. L. A. Nares, who have been summering at Del Monte, and other local resorts, are expected to return later in the week.

Mr. and Mrs. Earl Hughes and children, who have been at Pacific Grove a month's sojourn, returned yesterday.

Mrs. E. E. Humphreys and Miss Margaret Humphreys have returned from a several weeks' outing at Ocean View.

NEWSPAPER MEN INVITED TO FAIR

Scribes of State Will Be Asked to Make Stop Here

One hundred newspaper men, members of the State Editorial Association, may be visitors at the Fresno District Fair this year, according to B. W. McKean of Kingsburg, who is a member. Secretary Eberhart of the Fresno District Fair has written a letter to Friend W. Richardson who is president of the association inviting the members to include the Fair in their itinerary.

Each year the members of the State Editorial Association make a trip to some point of interest. This year the trip may be made to Huntington Lake. With this possibility in mind, the opportunity to visit the Fair at the same time has been brought to their attention.

will return the first of September after a summer's motor trip through Southern California.

William A. Daniel returned last night from a visit to Los Angeles and the southern beaches, where she was the guest of relatives.

Little Miss Evelyn Dow celebrated her seventh birthday very happily yesterday afternoon, having a group of friends to share the pleasures of the day with her. Games provided the diversion for the afternoon, and refreshments were served.

Included in the party were Sylvia Nicol, Dorothy Hammack, Mildred Harris, Margaret Englehart, Gladys Duckett, Thelma Duckett, June Astor, Dorothy Hills, Fern Roop, Beanie Roop, Byron Hammack.

Mrs. J. C. Ry and two babies are visiting in Fresno for a few days.

Mr. and Mrs. F. C. Goodwin and family are on a motor trip to Los Angeles and the southern beaches.

Mr. and Mrs. S. J. Samelson, Miss Bernice Broth, Mrs. Hartman and Mrs. Peter Broth and three children were members of a motor party that returned early in the week from San Francisco after a month's outing there.

Milton Haber will return, Saturday from Pacific Grove, where he spent the summer.

Mrs. A. B. Gardner and daughters, Marjorie and Jennie, have returned from Pacific Grove after a two months' vacation.

Dr. and Mrs. Victor Antonson and family have returned from a summer outing at Long Beach.

Mr. and Mrs. J. A. Coelho and Mrs. Lewis, Constance Praga and J. Silveira.

WOMEN WHO LEAD THE WAY

BY MARIE DILLE

Fraulein Hedwig Bushmann—"Reform Tante"

Fraulein Hedwig Bushmann, a charming, individual, and dainty, is the leader of the movement to free for ever the women of Germany from the tyranny of fashion. The war that is being waged by this woman and her followers is a just one. Paris is no longer the center of fashion. It is less violent than that which is being carried on outside of her immediate realm.

Her sphere is an unusual clothes factory on the banks of the Spree in Berlin. It is a woman's unique idea carried out in a unique way. In it are no actresses at least none, for the cutting of materials. For this is one of the policies of the clothes factory. All garments are made from straight pieces and are draped upon the wearer.

A constantly increasing number of German women are seeking the headquarters of the dress reformer to learn how clothes may be made more becoming and simply with less devotion to modes for the masses rather than for the individual.

Fraulein Bushmann sacrificed an uncertain career as a musician for a sure one as dress designer. She was a pianist of no mean note before making her decision in favor of dress reform.

Lillian Russell's Beauty Talks

OF SLEEP. We all know that sleep is the natural restorer of health and happiness. It is nature's remedy for pain, sorrow and disappointment. Many a task which seemed impossible at first, after a night's sleep, has been accomplished with ease.

The best preparation for sleep is sixteen hours of varied mental and bodily occupation; enough to tire, not to exhaust, the mind and body. When the mind is tired, the body is tired, and the body is tired, the mind is tired. This is the proper preparation which is neglected or forgotten by the majority today. In these days of little bodily exercise and much sitting, caused naturally by the modern inventions for the saving of time and exertion, sleep has to be courted and coaxed, if not forced. Bodies are sleeping while the mind is active. The same condition that exists during the sleeping dreams exists during the waking hours. The mind is active, reading, thinking, planning, and planning, and the body is inactive, sensationless and asleep.

When the end of the day arrives, the mind is fatigued, but the body is fully rested and rebels against further inaction. Then comes the fight between the mind and body. The mind desires relaxation while the body refuses to relax and it is then that force is necessary, by the use of either a powerful hypnotic or a powerful drug. Both are devastating to the system. When the body is exhausted, mentally, with the mind, the combination is perfect and, like Napoleon, one can at any time compose one's self to sleep at will. That fact seems wonderful but, if true, it is no wonder. The mind and body in such a case, used to the utmost, would constantly be in need of repose.

The most perfect man is one with a consciousness of talent equal to any emergency combined with strong physical and mental courage, and a clear view of all the contingencies of the hour. Those who do not find the required sleep in sleep, they are entitled to blame none but themselves. They are for the best sleepers because they keep active. Their business and their dream combine to make action both necessary and easy.

Women are inclined to give in to indulgence at the first opportunity. They have been trained to by husbands and brothers—that is, by good husbands and good brothers—prevented from rising, stooping, reaching and running, each and every action of which is the utmost benefit to the body. As we see children run and jump on every possible occasion, so we see men, young men, and women, who should emulate their children's habits to the extent of gaining limber muscles and active bodies.

PLAN BIG POULTRY EXHIBIT AT FAIR

Chief of Poultry Department Will Make Trip to State Fair

Geo. W. Hensley, supervisor of the Poultry department at the Fresno District Fair for many years, plans a trip to the State Fair at Sacramento for the purpose of interesting exhibitors and breeders of fine poultry in the show to be held here.

The local show has been growing in interest for several years and has become one of the large displays of fine poultry of the state. Hensley hopes to make it a greater attraction this year than ever before and expects to bring some of the prize winners of the state to Fresno, as well as international prize winners that won at the P. P. I. E. show at the State Fair.

The portion of the state is coming to the front as a poultry district and the importance of the local poultry show grows each season.

COMPLETION OF ROAD WILL BE CELEBRATED

Inyo-Mono Counties Will Hold Barbecue; Rocky Road Is Finished

Inyo and Mono counties have joined hands in a celebration that will be held Monday in honor of the completion of a little strip of the Bridgeport Independence highway but which is the most important link in the entire system through the mountains. The celebration will mark the completion of the first unit of the Camino Sierra-Sherwin-grade-over Deadman's Hill. This is the most rocky and difficult pass through the mountains. State Highway Commissioner Darlington of Los Angeles and J. B. Woodson, division engineer, will attend the celebration. A barbecue will be held and good road advocates have been invited to make speeches.

TO MAKE TRIP OVER HIGHWAY

D. W. Chamberlin, assistant division engineer for the State Highway Commission with headquarters in Fresno, will leave today on an inspection and pleasure trip over the highway south of this city. Chamberlin will stop in Bakersfield and will then travel by automobile to southern California. He will then go up the coast highway and return to Fresno via San Francisco.

STABBING VICTIM HAS RECOVERED

Antonio Riga, stabbed last June by Frank Lombardi, was released from county hospital yesterday. For several days his recovery was thought impossible. Lombardi has been held in answer to the superior court, and with the recovery of the victim the police are now anxious to proceed with the case.

Dr. Victor Antonson, osteopath, has returned, 214 Rowell building.

DO YOU UNDERVALUE NATURE'S PRIME RESTORER?

HOW TO WRITE A LETTER

BY LUCILLE DAUDET.

EVERY woman really wants to write letters to a dear friend, telling in newsy fashion all the week's or month's family events. She knows that the other woman will overlook mussy paper, blunders in spelling and poor penmanship. How little letter-writing appeals, however, when the business matter calls for a written adjustment, or the formal invitation must be answered immediately.

It is not quite fair that friends should get our worst efforts and strangers our best; and it need not be, because letters, especially informal ones, are very simple, after all, and only a few important details must be kept in mind.

First of all, be careful of your choice of letter paper. If it is white, plain, unruled and unperfumed it is always to good taste. Correspondence cards are useful also; but it must be borne in mind that they are not intended for lengthy letters, but only for notes for which one card will suffice.

Delicate colors are used generally nowadays, and faint perfume is permissible. The paper may be plain or monogrammed; or again, it may have the address engraved at the top.

Mourning stationery makes use of black edge matching in width that used on the visiting card.

Postal cards are perfectly proper when used for making appointments, announcing a meeting or forwarding an address, and should be signed with only the surname written out. It is a mistake, however, to publish family history and extremely personal news in the world in general by means of the postal card.

Every letter may be divided into six parts. The first part, the heading, consists of your address and the address to which you are writing, the address to come first, whether it takes up one or two lines, and the date following. They may both be put on the same line, if it is possible, and must be written on the right side of the page.

222 Main Street
Merion, Ohio.
April 6, 1916.

The salutation is next important. In a business letter this consists of the name and address of the person to whom you are writing as well as the salutation, and is put at the left of the paper.

Messrs. D. C. Stokes & Co.,
Alexandria, Va.

In a personal letter the address is not necessary. If used it is put with the full name of the person in two or three lines at the bottom of the letter on the left side of the page.

The salutation may be "Dear Henry," or "My dear Mr. Williams." The latter style is more formal than the first. A comma is used except in a business letter, when a colon is substituted.

The body of the letter is the message itself. It should be written in paragraphs, one for each thought. A half-inch margin is observed at the left side of the paper and an inch or two at the top. Write on the paper in the exact order that the sheets come, beginning by holding the fold at your left and the edges at your right. If only two pages are needed, the first and third may be used. Do not turn your paper around to write on sheet crosswise, and, above all, do not end your letter by writing in tiny letters across the margin. What is even worse is to write crosswise over the already covered sheets. In business correspondence plain sheets, written on one side, are good. Do not use abbreviations in your letter and be careful of punctuation.

The closing of the letter may be "Very truly yours" or "Sincerely yours" in a business letter, or "Yours cordially," or "Yours, with love," in a personal letter.

In a personal letter the signature may be only the first name. In a business communication, where it is not necessary to know her maiden name, a married woman may sign her husband's initials, as "Mrs. J. J. Prady." Where she thinks that her maiden name may not be known she signs "Alice T. Brady" and writes the proper form below the signature at the left of the page.

Informal letters are written in the first person. Notes of condolence, congratulations, invitations for small affairs come under this head:

16 Spring
Long Island, N. Y.
April 8, 1916.

Dear Mary: My husband and I were deeply grieved to learn of your mother's death. Knowing her so well, we realize what such a loss will mean to you, and we want to extend our sympathy. Sincerely yours,

ADELAIDE H. BROWN.

16 Spring
Long Island, N. Y.
April 8, 1916.

Dear Margaret: I was delighted to get your letter in which you told me of the baby boy's arrival. I want to extend my best wishes for his health and prosperity. Take good care of yourself that you may get strong quickly. Yours, with love,

ADELAIDE.

Fold and enclose the letter so that the reader will get it right side up in his hand ready to read when he unfolds it. Use few or no abbreviations in addressing the envelope. If punctuated, a comma comes after every line but the last, where a period is used. The postage stamp should be put in the extreme upper right-hand corner.

either. There's lot of times when a woman feels as though she'd like to be far plain, unvarnished, soft, man or woman, but to one's own will to pay the price of it, in love. I don't say all men are alike. I know there's exceptions, but most of 'em come under what I'm tellin' you."

BEAUTY VALUE OF SLEEP

BY EDNA EGAN.

Sleep is to strain and purify our emotions, to deposit the mud of life, to calm the fever of the soul, to return into the bosom of maternal nature, thence to release, healed and strong. Sleep is a sort of innocence and purification. Blessed be He who gave it to the poor sons of man as the sure and faithful companion of life, our daily healer and restorer.

These facts should be enough to impress on every reader the importance of sleep, for which there should be allowed sufficient time in every one's day of twenty-four hours. Yet how many of us are well acquainted with persons who think it is "smart"—yes, that's the word—to stay up until all hours of the night, declaring that by so doing they have a "well" time. It would be interesting to follow the gradual downfall of each boaster who will not heed any one's advice that a certain amount of sound sleep is required by every one. It is seldom possible for the voluntary muscles and the voluntary nervous system to rest during the waking hours. Therefore, nature has decreed that there shall be a time set aside when the forces so active in waking hours shall be renovated.

In order that the renovation shall be possible, one must be in perfect health. When one is afflicted with bodily ill the sleep is not perfect. On the other hand, bodily ill requires sufficient and very often an extra amount of sleep to repair any damage done. Thus you see that health and sleep are entirely dependent on each other.

It is only during the sleeping hours that the heart has any rest whatever. I think it has been found that it beats six to eight times a minute less frequently during sleeping hours. The lungs, too, are controlled by muscles which can receive comparative rest only during sleep. Respiration is reduced, inspirations being less in number as compared with the number when awake. The muscular action which controls the process of digestion has less to do when one is asleep. It is for this reason that one should not eat heartily before retiring.

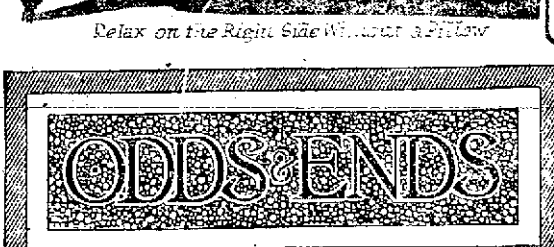

There are some persons who have the greatest difficulty in getting to sleep. Frequently one gets into the habit and goes to bed with the idea in mind that sleep will not come for at least an hour or more. When the habit is not strong, a hot footbath will often prove effective. This brings the blood from the brain to the surface of the skin. General warm baths, cold douches to the spine, brisk exercises or light massage are other effective methods; but one should not adopt any unless that particular method is especially suited to the one troubled with insomnia. To you sleep one should put one's self in a position of rest. Avoid irritations, noises, bad air, cold feet and overladen bowels. All of these things cause wakefulness and prevent proper physical rest.

One should lie on the right side and should do without a pillow. By continued efforts the pillow habit can be broken, and should be broken if one has become a victim to it. The body should be thoroughly relaxed, otherwise sleep will not be restful. One woman, who was threatened with insomnia, took hold of the trouble in its early stage. First of all, she never did anything an hour or so before going to bed that would excite the nerves. Next, she placed herself in the position just described, relaxed completely and then breathed in regular time. The rhythm of the motion in breathing did as much as anything else to bring sleep. It is sure to aid in other cases.

When possible, the bed should be placed in such a position that it does not face a window. Should it be inconvenient to avoid facing the light, a screen or shield of some sort should be devised to take off the glare. If a screen is not available one can use a chair instead. Place it beside the bed and over the back throw a garment thick enough to keep out the light.

For the person who wishes to sleep out of doors one word of advice is to be given, and that is to see that the outdoor sleeper is sufficiently warm. A very satisfactory blanket for this purpose is pictured. It is roomy enough for comfort and woolly enough for warmth.

Whether you sleep indoors or out of doors, try to let your sleep be sound and dreamless, so that it will have an opportunity to restore the tissues that were broken down during the waking hours.

ODDS & ENDS

LEMONS may be purchased very cheap and kept for months. Put a layer of dry sand about an inch deep in an earthenware vessel. Place a row of lemons on this, with the stalk ends downward, and be very careful that the lemons do not touch. Cover them with another layer of sand about three inches deep, and on this layer place another lot of lemons, and so on until the jar is full. Store in a cool place.

THE broken door or window screen is an eyesore all summer if it is left unattended, and the repairing is done clumsily. The neatest way to mend the screen is to cut a piece of wire netting about three inches larger than the hole. Remove the wire around the edge of the patch for half an inch or more, like drawing away the threads from a piece of fabric. Bend the netting, prongs at right angles and fit the patch in place with the wire ends sticking through the screen. Press the patch flat against the larger surface, then on the other side press the ends back to their original position. This secures the patch.

DID you ever expect to wear a hat made out of paper? Probably not. And yet it is quite possible that you will do just this very thing this season, for fiber hats, which are really made out of paper, just the same sort of paper you find in ordinary news sheets, treated with a different process, are now all the rage. Fiber hats are delightfully cool and comfortable worn on the golf links or tennis courts. Bedroom slippers for summer wear are also fashioned out of the fiber, and make delightfully cool covering for the feet. Some of the smart dressmakers are even making dresses out of this new material, and they say it is practical for this purpose, as the fiber washes as beautifully as linen. This material is soft and pliable and looks extremely well made up in dresses. It is the closest sort of fabric for summer wear and for this reason the novelty should prove popular. One might suppose that, being made of paper fiber, it would be apt to tear, but the laundry test is sufficient to set at rest any fears on this score.

DELICIOUS way of imparting a delicate scent to the hair is to let it filter through it in the form of steam. It sounds difficult, but it is not at all. Simply fill a small bowl with boiling water and pour some of your particular perfume upon it. The two liquids will not mingle, but if you hold your head over the bowl the steam of the water will carry the scent with it and through the hair in a most satisfactory fashion. Provided one is careful to remember the charm of a scent in its ever elusive character, that it should be so faint as to be perceptible

DIET A Chief Item of Good Health.

BY ANETTE ANGERT.

MAN said a friend the other day, "is the sum total of what he eats and drinks." He went on to explain the various foods consumed by different nations and the relative moral standing of those nations.

If strong drinks, intoxicating foods, condiments and stimulants affect adversely the man who lives an active outdoor life, is it not logical that the effect upon women of sedentary habits must be even worse?

If you are irritable, nervous, generally quick-tempered, a sufferer from insomnia, you are not 100 per cent attractive. It is your duty to appear at your best all the time, and you cannot do it if your diet is not correct. So begin today and watch the effect of the various foods you eat and eliminate those which you find do not develop the best that is in you.

One of the first things to eliminate is a superabundance of condiments, which have an irritating effect upon the stomach. In many cases creating a desire for strong drink and plenty of it. Teachers in large institutions where young children are enrolled will not permit the use of pepper, mustard, vinegar, etc., because science has proved (and has forced the world to recognize) that one of the surest ways to establish a low moral standard is to give condiments to the growing child.

Meat should be taken but once a day, and red meat sparingly. Vegetables, fruits, grains and dairy products should form the greater part of every one's diet, for a diet composed largely of flesh (especially red meats) has a tendency to coarsen, to develop a spirit of combativeness, to dull the finer sensibilities and emotions, to kill the spirit of sympathy and mercy.

A diet composed largely of starch, sugars and acid fruits also is a foe to health and happiness. It causes fermentation and an irritation of all the mucous surfaces of the digestive tract. Millions of nerve fibres and one vein and capillaries lead from these diseased and irritated linings to every part of the body. The result is that irritability, nervousness, insomnia and various other ailments leading to unattractiveness are developed. The finest disposition in the world, the clearest brain, can be irretrievably spoiled by such a diet.

Famous dietitians, and doctors who have given careful study to foods and their effects upon the morals and disposition of human beings and animals, claim that they can determine the character of food eaten by the physiognomy. This being true, it behooves us, in the interest of our right to beauty, to confine our diet to such foods as are the allies of beauty, and not its demonstrated enemies.

YOUR TEETH

SINCE the condition of the teeth depends so largely upon the condition of the teeth, the rule of constant care should be rigidly enforced, and the time to begin this enforcement is when children are young, so the habit will become instinctive.

Dentists tell us that it takes time to clean the teeth properly, that the vertical movement should be used instead of the usual horizontal one; that after the powder or paste application there should be a final brushing with clear water, so that every bit of foreign substance may be removed.

Nearly all powders contain borax, an element which is very cleansing but bad for the enamel. Charcoal, though cleansing and possessing antiseptic qualities, is bad for the enamel, for it cannot be pulverized fine enough to rid it of the needle-like particles of wood.

LOVE IN SMALL PACKAGES

BY MRS. McCUNE.

MRS. MOORE was a slender, pretty, dark-eyed woman, whose aim and existence seemed to be that of pleasing her husband; and in her enthusiastic efforts to be all things to him she clung to him with the tenacity of a drowning sailor. She hung on his most trivial words as though they were pearls of wisdom. She anticipated his slightest wish, and sprang to wait on him and fulfill him, unconsciously, all of which, of course, he tolerated, but did not return. Several times Mrs. Moore had tried to get a brief shadow of love over the young wife's face when some tender solicitation on her part brought forth an answer.

"You love him so much," she said one day, "that you don't know what you want." "Of course you don't," responded the straggler. "That's where your trouble comes in. You love him so much

you feel as though you want to be doing something to show him you do all the time, don't you?" "Yes, indeed, I do," agreed the other woman, earnestly. "I never cared for any other man. Dick was my first and only lover. He used to be crazy about me before we were married, but lately he's so different. They say that's the way it is with all married people after their first year together; but I know two or three women whose husbands are simply mad about them still, and they've been married ever so long."

"She's just a baby," said man of her neighbor during one of their evening talks; "and the worst of it is, she can't see it. The more she sniles the harder she hangs to him. He's real good looking, and he knows it, and she's crazy about him till he has an awful swollen head. Now he's beginning to get tired of her worship, and the first thing you know he'll be out scuttling around to find out what some other chick thinks of him. The only way to keep a man like him is to keep him guessing. I'd tell her so if I dared, but I guess she wouldn't thank me for it. Tell a person the plain truth, and they'll show you the door. Nine times out of ten." And the woman on the next floor had replied with her usual emphatic response, "Ain't it the truth?"

Mrs. Moore could never quite remember how the moonlight conversation began. She and the wife of a loved too extravagantly empty-headed into an impersonal talk about love and marriage that finally ran into personal affairs, and suddenly she discovered herself facing a tragic-eyed woman who struggled hard to keep back the facts for an instant Mrs.

GREEN FRUIT MARKET AT STAND STILL; NO FRUIT FROM VALLEY

Packing Houses and Canneries Are Receiving Very Little Fruit; Peach Growers Instructed Not to Deliver

Packing houses and canneries have practically stopped receiving green fruit, the California Peach Growers' Inc. will not receive any more peaches, picking has stopped in the vineyards and the green fruit market is at a standstill as the result of the embargo that has been declared by the Southern Pacific and Santa Fe in expectation of the railroad strike Monday morning. No green fruit was received by the canneries yesterday for shipment outside of the state and there was very little shipment by the canneries.

Griffin & Shelby are receiving at the plant here but only in small quantities. The fruit is being shipped to the canneries at Oakland but the shipments this afternoon will probably be the last.

All of the plants of the California Associated Raisin Company were operated yesterday and about 100 tons were shipped from the Pacific Coast plant here. L. B. Payne announced yesterday that it was the intention to make shipments as long as the freight would be received by the railroads. As the women worked last Sunday they will not be employed Saturday in order to comply with the six day week law. A crew of men will work at the plant tomorrow.

No Fear of Food Shortage
Fresno being the distributing point for the wholesalers of the San Joaquin Valley very little apprehension is felt in this section of the valley over a food shortage. Automobile stage companies have already announced that they will take care of the passenger business in the best of their ability and it is likely that they will enter into the freight business if the strike continues for any length of time. The wholesale grocery companies have sufficient food in stock to last for two or three weeks and the produce houses will receive big crops from the farmers by automobile trucks or horse and wagon. Smaller towns of the valley, a few hours distance from Fresno by rail, became a little alarmed yesterday and big orders were sent to the local wholesalers. Men worked last night filling orders that will be shipped out today. It is the general impression that in event of a strike the railroads will not be crippled long enough to cause a food shortage in the interior.

Notice to Peach Growers
The California Peach Growers' Inc. yesterday issued the following bulletin to the growers of the company:
In view of the pending strike the California Peach Growers have suspended the receiving of peaches until the strike is settled. This

CAMP WARNER GIRLS WILL HOLD REUNION

Informal Program Arranged; Branch House Well Patronized

A reunion of the Camp Warner girls, or any other residents of Fresno who have at any time attended a summer camp at Y. W. C. A. members will be held at the Y. W. C. A. court, 1 and Tulumaine streets, Saturday, September 9. A musical program, followed by informal addresses and refreshments will make up the program. The committee in charge is anxious to have every member of the three camps held in the Sierras attend.

Reports of the work of the branch Y. W. C. A. house at 1819 Ventura street, show that during the past week an average of 30 of the packing house women have taken luncheons there. The accommodations of the house have been enlarged and many conveniences added for the benefit of the patrons.

It will be well to see that the child's eyes are not going to be unduly strained by school work. An examination will tell.

FRANK REHORN DIES FOLLOWING AN OPERATION HERE TURNING TO JOHNSON

Pioneer Contractor of Some Members of G. O. This City Passes Away in S. F.

Resident of Fresno for More Than Twenty Five Years

Frank Rehorn, pioneer contractor and builder of Fresno, prominent Mason, Shriner, Knight Templar and Elks, died yesterday at the Lane hospital, San Francisco, after an illness which followed an operation performed last Monday at a local hospital to relieve a condition of the prostate gland.

At the last side of Rehorn when he was last seen by his wife, Myrtle, Conrad Rehorn and his son, Ralph, 23 years old, who had been prepared for the end by the attending physicians when the realization came that the operation would prove unsuccessful, is expected home sometime today. Her son, who is now in the city, is expected to arrive here at the old Rehorn home, 1930 S. street, that he and his mother were leaving on the night train.

Did Much Building.
The name of Rehorn has been associated with many big building operations in Fresno county as well as within the township during the past quarter century. Arriving here direct from New York more than 25 years ago, Rehorn and his young wife settled down and became one of the builders of the community. From the time of wooden shacks to the present day of skyscrapers, Rehorn figured in every stage of the building industry. During one of these years of activity, his friends are not certain of the time, that Rehorn met with an accident and from that time suffered considerably from its effects. He was under the care here of Dr. J. L. Maupin. Other physicians were consulted, but with no relief could be offered without the aid of an operation and finally Rehorn submitted to this. With his wife and son, he left for San Francisco last Friday and prepared to enter the hospital. Monday the operation was performed and Rehorn recovered for a time that the patient would recover, a relapse set in and from that moment to the end, Rehorn sank slowly, but surely.

Well Known Club Man.
A well known figure in club life as well as an active worker in the building trades, Rehorn in recent years became interested in the commercial life of Fresno and was elected to the directors of the Union National Bank here. He was one of the promoters and at one time one of the largest stockholders in the Morton Engine Company. His interests in this concern were disposed of by him quite recently. He also owned the Rehorn building on J between Tulare and Kern.

Whether or not the funeral will be held in this city, will be ascertained in the evening. Friends of Rehorn home and Miss Ida Miles of 1225 M street, an intimate friend of the family, expressed the belief that the body would be brought here for burial and that it would be held under the joint auspices of the several organizations of which he was a member.

Ralph Rehorn, the son, recently finished a degree at the University of California, Helen, the daughter, 14 years old, remained at home with friends and her mother. Members of the family departed on their unfortunate journey.

CUDAHY COMPANY TO BUILD AGAIN

Structure at Cherry and I Street to Cost \$7,500

A new Cudahy Packing Company branch, to cost \$7,500, will be erected at 1841 Cherry avenue. The plant will be one of the most modern and complete in the valley, according to P. J. Walsh, local manager, who yesterday authorized the excavating to begin today.

The old plant was located on the Santa Fe right of way. The ground the new building will occupy is located at Cherry and I streets and is owned by the Southern Pacific Company. The building will be 100 feet long and will be constructed of concrete and brick. It will be called on for separate contracts for the brick and concrete work. The smoke-house and cooling plant will be constructed by the company. The smoke-house will be the only one in Fresno, according to Walsh. Practically all the smoked meats for valley consumption will be cured in the plant.

Upon completion of the building a banquet will be given to the merchants of Fresno.

MORE JOBS HERE THAN JOB HUNTERS

Employment Bureau Furnishes Positions to 730 Men and Women

The municipal employment bureau for the month of August furnished 730 jobs as against 551 for July. Among the positions filled were 400 for men and women and 330 for women. The bureau reported that the sum of \$1,235 was saved to the job seekers. Rossell yesterday filed his report with the city clerk. He announced that he had more jobs than men and women to fill them. He said that the number of jobs was due to the demand for field laborers and construction helpers.

ANNOUNCE CIVIL SERVICE EXAMS.
The Civil Service and set-up commission yesterday announced the examination for the following positions: Assistant mechanical draftsman, salary \$1,200 to \$1,600. Expert driver, salary \$1,200 to \$1,600. Expert driver, salary \$1,200 to \$1,600. Expert driver, salary \$1,200 to \$1,600. Expert driver, salary \$1,200 to \$1,600.

TOTS MASQUERADE FOR THEIR ELDERS

200 Children Take Part in Fete at Dickey Playgrounds

Dickey playgrounds was the scene of a happy affair last evening, in which 200 children participated and 500 adults were spectators. It was a masquerade. Almost every outdoor costume, prominent theatrical and historical character, was represented. The children paraded in their costumes in front of the tennis courts, where the judges sat.

Albert Spear, garbed as a samurai and Roy Lombard, as a suffragette, were decided on as wearing the two most original costumes and were awarded the prizes accordingly. The judges were J. L. Rhybush, Mrs. George Taylor, Mrs. J. S. Buckett, Mrs. and Mrs. Edwin Blomquist and Mrs. M. P. Self.

Another feature of the evening was a neck wedding, in which pretty Elizabeth Harriet Blosser was bride and Elizabeth Brown, conventionally clothed as a groom, were principals. Martha Johnson was frocked as a clergyman and pronounced the ceremony. Goldie Kosick and Margaret Kusick were attendants.

John Brest and Julia Brown entertained all with solo dances. The children then took part in a general frolic. The refreshments just evening were held under the auspices of the Fresno Playgrounds Commission.

CRONKITE TAKES ON NEW SURVEYOR

Van Valkenburgh, Jr., for the past two months engaged on the new survey for the city, today entered the service of City Engineer J. P. Cronkite.

ASKS SUPPORT FOR CHILDREN

In order to show cause why he should not pay as much as \$10 a week for the support of three minor children, 17, attorney fees and \$25 court costs were ordered directed against George Yates of Fresno yesterday by Judge J. W. Austin of the Superior Court on application of attorneys representing Mrs. Frances P. Yates, widow of late Mrs. Yates brought suit against her husband for divorce.
